| Number of Participants | 66 |
| Description of the program: NSS UNIT of P.S.V College of Engineering & Technology organized DRUG AWARENESS PROGRAM on 31-10-2022 in our institution around 175 students participated in this program. Drug abuse is a serious problem that can have devastating consequences for individuals and communities. It is important to be aware of the risks associated with drug use so that we can make informed decisions about whether or not to take drugs. There are many things we can do to prevent drug abuse and addiction, including educating ourselves and our children, creating healthy environments, and providing resources and support for people who need help. We can also work to improve our communities by creating opportunities for people to be active and engaged. By making these kinds of positive changes, we can help reduce the risk of drug abuse and addiction in our society. | |
