Description of the program: <p>There are about 6,500 languages in the world, but did you know that a language disappears and dies every two weeks? International Mother Language Day, on 21 February, is a day to celebrate and protect all the languages of the world.</p> <p>A language is much more than just a way of communicating. Language, and particularly our mother tongue, is an important part of our culture. Some people even think that our language can change how we see the world.</p> <p>Globally 40 per cent of the population does not have access to an education in a language they speak or understand. Nevertheless, progress is being made in multilingual education with growing understanding of its importance, particularly in early schooling, and more commitment to its development in public life. Speaking on the Occasion Dr.L.P.Vettrivelan, said that commutation is very easy if we are using mother language, and also conducting the speech competition about international mother language day.</p>
