Description of the program: <p>NSS UNIT of P.S.V College of Engineering & Technology organized sapling plantation program on 28-09-2022 in Government Hr Sec School Orappam around 32 students participated and planted the trees.</p> <p>Gardening and planting trees create a pleasing and relaxing environment. Also, they help in reflecting the harmful rays of the sun and maintaining a balanced temperature. Besides, they also help in water conservation and preventing soil erosion.</p> <p>As trees grow, they help stop climate change by removing carbon dioxide from the air, storing carbon in the trees and soil, and releasing oxygen into the atmosphere. Trees provide many benefits to us, every day. The tree plantation helps majorly to the environment as it reduces the pollution and other toxic gases in the atmosphere.</p>
