Description of the program:

NSS Unit of P.S.V College of Engineering & Technology organized Rally on child marriage on 13-05-2022 from college to Krishnagiri around 250 students participated .

Child marriage is no less than exploitation of right. In almost all places, the child must be 18 years and above to get married. Thus, marrying off the child before the age is exploiting their right. The impact of child marriage can be life-changing for children, especially girls. The household responsibilities fall on the children. They are not mentally or physically ready for it, yet it falls on them. Ending child marriage is the need of the hour. In order to end this social evil, everyone from individuals to world leaders must challenge the traditional norms.

Moreover, we must do away with ideas that reinforce that girls are inferior to boys. We must empower the children, especially girls, to become their own agents of change. To achieve this, they must get access to quality education and allow them to complete their studies so they can lead an independent life later on in their life.
